

AP Computer Science

CodingBat Assignments for 2nd Semester

Programming skills come from practice...and since we do much of our programming in class, we really do not get the required practice to become quick at what we do. I would like all of you to become “naturals” with programming in the Java language (or any language for that matter), so I am assigning some “method practice” through the CodingBat website.

Week of	Complete the following	Due date (by midnight)
1/7 – 1/11	Any 3 of the methods in the Array1 category	1/12
1/14 – 1/18	Any 3 of the methods in the Array1 category (not yet complete)	1/19
1/21 – 1/25	Any 3 of the methods in the Array1 category (not yet complete)	1/26
1/28 – 2/1	Any 2 of the methods in the Array2 category	2/2
2/4 – 2/8	Any 2 of the methods in the Array2 category (not yet complete)	2/9
2/11 – 2/15	Any 2 of the methods in the Array2 category (not yet complete)	2/16
2/18 – 2/22	Any 2 of the methods in the String2 category	2/23
2/25 – 3/1	Any 2 of the methods in the String2 category (not yet complete)	3/2
3/4 – 3/8	Any 2 of the methods in the String2 category (not yet complete)	3/9
3/11 – 3/15	Any 2 of the methods in the AP1 category	3/16
3/25 – 3/29	Any 2 of the methods in the AP1 category (not yet complete)	3/30
4/1 – 4/5	Any 2 of the methods in the AP1 category (not yet complete)	4/6

These will be counted in the Programs category of your grade as well as the homework part of your grade...so it is well worth your time to complete these in a timely manner.

****** Note: If you complete extra methods in the String2, Array2, or AP1 category, I will give some extra credit. ******
